

TAP WATER

„TAP WATER FRIENDLY“ AWARD

Our team and guests at August Hildebrandt GmbH have been drinking tap water from one of our water dispensers for years. We are all the more pleased about the award:

„Tap water friendly“ from the association a tip: tap e. V.

This way we save plastic waste and CO₂, a small but effective step towards more sustainability. Frank Zühlke from our team also sees it that way, as he taps his fresh tap water here - Hildebrandt goes.green.
